

TWO DAY ASSESSMENT WORKSHOP

Take your business to the next level

This 2 Day Workshop is to assist businesses in utilizing Lean Tools to develop a method and plan to eliminate waste with the identified Pain Point in the manufacturing process. This workshop will use the Value Stream Mapping tool to visually observe Current State of process, develop action plan to improve process and map the Future State. This workshop also identifies the monetary impact of each action to demonstrate the impact to EBITDA, Cash and ROI for the workshop.

As a result of this workshop a proposal will be provided based on actions identified, required training for implementation as well as coaching offered by GKW Business Solutions

Benefits of the Workshop

- ✓ Introduction of Lean Tools
- ✓ Culture Shift
- ✓ Visual Map of Process
- ✓ Specific Action Plan To Improve Constraint Process
- ✓ Plan To Implement Lean Tools Into Organization
- ✓ Financial Impact Analysis By Utilizing Proprietary Financial Model
- ✓ Positions Owner To Maximize Value Of Business At Sale
